Story a Fabrication. The tale in an Omaha paper that the

managers of Congressman Burkett's campaign are mainmining separate headquarters in Lincoln for the purpose of furthering the interests of Mr. Burkett, and that its managers meanwhile are knifing Governor Mickey, is pronounced a silly fabrication by the friends of the First district

A visit to Congressman Burkett's headquarters in this city is sufficient to disprove the story. Instead of a dozen stenographers there is only one, who has been regularly employed by Mr. Burkett, George E. Tobey, his private secretary, and Rufus Clark, who is engaged in sending out Congressional Records, constitute the remainder of the office force.

Mr. Munger is in charge of Burkett headquarters and the Burkett campaign. Mr. Sizer has not been at all active in the campaign, and Mr. Bignell has not been around at all. The story that Mr. Sizer does not stay around the postoffice is absolutely untrue, as those who have had business with the postmaster are well aware.

Preparing Assessors' Books, Members of the State Board of Equalization have prepared plans and lodged a regulation with the State Printing board for the annual supply of assessors' books under the law as it now exists. Something like 2,200 books are needed. Members of the board declare that their action in lodging the requisition at this time is not calculated to give an impression of confidence in the continuance of the law or an expression as to its virtues, but rather a precautionary step to procure the necessary books in ample time. It is essential that they be in readiness in January, and it may take considerable time to prepare them, and last winter considerable delay was experienced in getting them.

F. C. Woodward, who several months ago opened up a stock exchange in one of the rooms of the Dewey Palace hotel, skipped out of town Monday evening after defrauding a number of people out of considerable sums of money.

Woodward covered his movements so adroitly that no suspicion was entertained until after he had left town. His landlord found that Woodward, who was considerable of a dandy and had several line suits of clothes, had taken them all with him, leaving nothing but a worn out suit and some old neckties. The cannonball next morning failed to bring him, and it was found that he had faisified the market reports on the day previous. By so doing he had collected money on margins, getting twheat. The wheat market closed Monday at \$1.12½. According to Woodward's board it was \$1.07½. At about II o'clock came a telegram from Boise, signed F. C. Woodward, stating that he had missed the Cannonball and would be over at 2 o'clock, but this did not allay the suspicion, as it was suspected that some woman in Boise, who had been over here several times with Woodward, had sent it in an endeavor to cover his flight and give him more time. A little inquiry soon revealed that she had sent the telegram and further that she had sent the telegram and sent to head him off. His wife and son are in Nebraska visiting relatives.

WRECK IN ILLINOIS Cars of Burlington Train

Go Into Creek Near Elmwood.

PEORIA, Ill., Sept. 26 .- As a result of a washout on the Burlington railroad two miles east of Elmwood, at 5:50 o'clock this morning, two passenger cars were ditched, one man killed, three seriously, probably fatally, and twelve slightly injured. The wreck took place at the junction of a small stream and the Kickapoo creek. A terrible rain storm visited that section last night and the roadbed of the track was washed out for a short distance, leaving the rails suspended in the air.

The train struck the unsupported rails at a high speed. The engine shot across and left the track, but remained upright. The baggage car was hurled into a deep litch and the smoker on top of it. The chair car remained on the track.

The killed: JOHN BOCK.

Fatally injured: Rev. J. Kenniston, Elmwos Frank Reeding, Galesburg, M. Lents, Galesburg.

About a dozen of the passengers received cruises and minor injuries. The engineer and fireman remained on their engine. The track was torn up for a distance of 300 feet.
